

Receive a Letter About Your Benefits?

If you receive FoodShare, Medical Assistance or help with your Medicare Premiums, you will be receiving a letter in late December or early January. This letter will provide you with a new contact phone number, address and fax number to report changes and provide information.

Your benefits will not be changing – only the contact information.

If you have questions please contact the Aging & Disability Resource Center at 888-538-3031 or the number on your letter.
